

ADI

TALE OF COURAGE AND KINDNESS

Krembo Wings

A youth movement for
children with and
without disabilities

Adi, 14 years old from Israel, uses the power of his voice and comedic talent to bring joy to others. Just like Elsa from Disney's *Frozen*, Adi channels his powers and uses them to spread love and happiness to those around him.

Adi has a severe congenital disorder, a progressive degenerative muscle disorder in which boys are often dependent on a wheelchair by their early teens. He became a member of Krembo Wings, a youth movement for children with and without disabilities, and dreamed of one day becoming a counsellor to help other children.

Adi never gave up on his dream and is now a counsellor at Krembo Wings where, every week, he guides a group of children -with and without disabilities - and hopes to inspire them on ways to fulfill their own dreams.

Adi continued to dream big and is also a stand-up comedian - a professional career that started when he performed at Krembo Wings' annual fundraising events. At the age of 14, he has already performed alongside some of Israel's top comedians. Even with his growing professional career, Adi continues to use his comedy to assist the organisation in its efforts to raise funds for life-changing activities. Adi has demonstrated his courage and kindness through his dedicated work with Krembo Wings and is an inspiration to many.

Krembo Wings is an inclusive youth movement based in Israel with the aim to develop social change.

Krembo Wings helps reduce feelings of isolation and loneliness through its social-educational informal activities, helping children and youth to build their emotional resilience. To find out more about Krembo Wings, please visit the organisation's website: <https://www.krembo.org.il/en/>

To find out more about how Disney supports organisations like Krembo Wings to bring comfort, inspiration and opportunity to children and young people across the globe, please visit our website: <https://thewaltdisneycompany.eu/>
